

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates. The cable ownership

cap is a crucial element of our democratic media, and it should not be weakened.

If an enemy were to attack, invade, and take over our government, the enemy would take over the news outlets and silence or kill all opposition while also doing all to make the populace not believe or esteem them and their ideas. Without many diverse ideas and without the truth clearly stated for all to access and understand, there cannot be any democracy. We need self-government through informed decision-making, with critical thinking and prayerful analyses of the truth, the facts, the human stories, the connections, the significance. With only a few controlling the information and public opinion, there is danger for all, not just for people like you who would lose their jobs. Please let me know your response
